

RK RUBBER

CUSTOM PARTS FABRICATOR

Finger splice experts!

We are pleased to announce our latest acquisition of technology - the ALMEX UBR Press. This state-of-the-art vulcanizer has hit our floor and is ready to be on yours- should a belt breakdown happen. Our field service crew will get your belt-line up and running faster than you can say, "RKR our BFF thx 2 UBR." And that's no UBI (useless bit of information).

Dell Guiknecht
General Manager

Finger splicing- the new industry standard.
