RK RUBBER

CUSTOM PARTS FABRICATOR

Team RK – pure gold!

[Current Medal Count Standings](#)

Ever feel like you are running a marathon while competing in a decathlon as you swim 10,000 meters after a successful gymnastics floor performance? Yeah, me too.

While you and I may not be world class athletes, how we approach the daily

grind of our respected vocations is none-the-less executed with the highest level of professional tenacity. At least if you want to succeed in hitting high marks in customer satisfaction.

It's my pledge to constantly strive to deliver the "gold" with every project that hits the floor and flies out the door at RK Rubber.

Dell Gutknecht
General Manager
