

NEW Responsive Functionality

Our approach to business has always been to be “responsive.” It only follows that our website should do the same.

(what a concept)

RK RUBBER

Dell Gutknecht
General Manager

When did that happen?

This month offers up opportunity to reflect and be thankful. I am reminded of that on turkey day and every day that I walk through this shop.

You know how a work day goes by quicker when you're busy?? Well that's what must have happened around here for the last 120 years.

One of my favorite sayings is, “if you want to get something done, ask a busy person.” Soooo what I'm saying is; feel free to give me a call... I'll make sure to get it done. And thanks!

EST. 1898

We have a history of innovation, ingenuity, and delivering the goods.
That said, we're all about history repeating itself.
