

Major milestones (like a 120th anniversary) give me cause to pause. I am reminded of a favorite quote:

*"I must change
in order to stay the same."*

That rings true here at RK RUBBER. Over the years we have reinvented ourselves; staying relevant and keeping current with technology. All the time gaining experience and delivering the goods. Our customers have come to not only expect that, but rely on it.

 = **SOLUTIONS**

Consistent quality fabricated parts and inventive solutions where our experience is tested; all in a day's work. Makes a guy want to get up in the morning!

What can we do for you? Just give a shout.

Dell Gutknecht
General Manager
