

**RK RUBBER®**  
CUSTOM PARTS  
FABRICATION

**Durable & flexible...**

It's a changing world all the time. There's always something new coming along, whether it's different customers or new fabrics for new applications. With that, RK RUBBER has had to embrace new technologies and stay on top of best industry practices... because that's what industry leaders do.

We've established a nice reputation for that. Lots of old companies have disappeared, but there are still plenty around who recommend us to new customers.

RK Rubber is, ironically enough, a lot like vulcanized rubber: Even when subjected to pressure and stress, it's durable and flexible enough to always bounce back strongly.

**“...we're the problem solvers”**

Dell Gutfnech, General Manager

[Problem Solvers](#)

A good team  
needs three things:  
the right people, the right spirit,  
and a couple inside jokes.

It's no accident we  
foster teamwork and  
sticking together. Ok...  
sometimes it's an accident.
