quality materials.

Experience = Solutions

Sleeves

Thick Gray Silicone Spliced Tube

Tapered Rubber Sleeve

Our rubber sleeve fabrication is the best in the industry.

- We can quickly supply **Straight** or **Tapered** (Conical) Flex Connectors to any material handling manufacturer or distribution facility in the U.S.
- Some rubber fabricators rely on a cold-bond adhesive process – a shortcut that creates weak, brittle joints which are prone to tearing.
- We use uncured compounds in our splicing techniques for all types of sleeve manufacturing.

Rubber Sleeve Order Form

* Measurement Unit used in your dimensions below (inches, cm, other)

Part Dimensions

* A ID

* B OD

* C Length

FOR TAPERED SLEEVE ONLY:

* D ID #2

* E OD #2

* F Thickness

Perspective

Visit rkrubber.com 'parts order guide' for quick, easy, and accurate ordering!

- We hot vulcanize seams with heat and pressure for durability and reliability.
- Each sleeve is carefully inspected to verify adherence to your required specs and our commitment to deliver high quality products.

Connectors

Rubber connectors provide many benefits compared to fabric.

- Higher durability
- Smooth interior surface
- Easy installation
- More cost-effective
- FDA-approved materials
- Made to any size and shape

Silicone Coated Fiberglass Sleeve Splice - Hot Vulcanized Sewn and Sealed

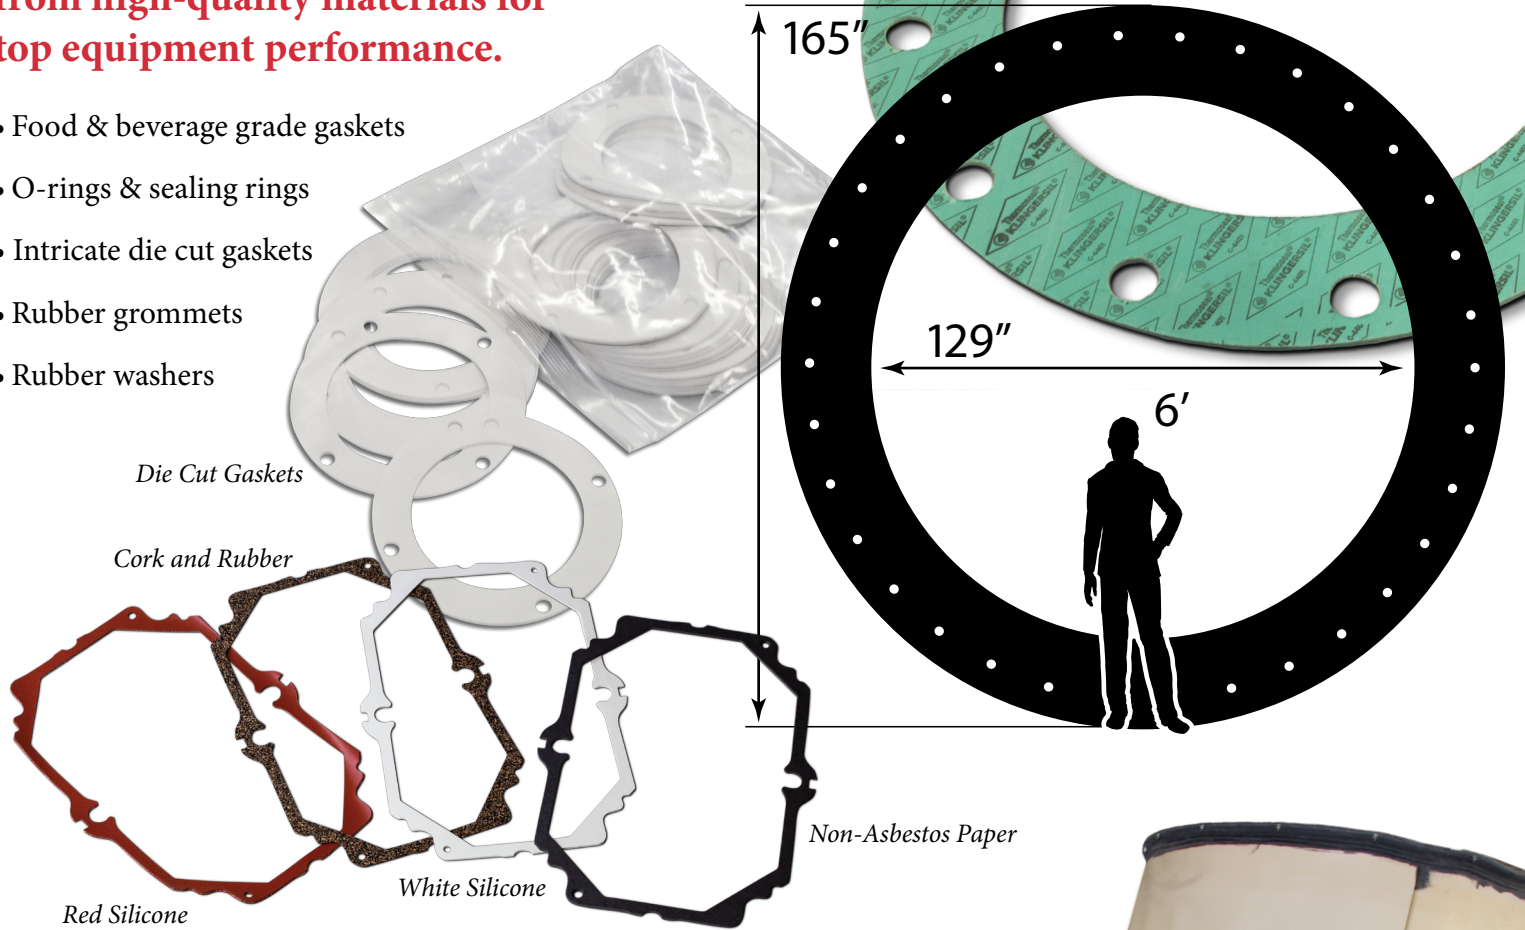

FDA Pure Gum Connector with White Nitrile Flanges

Gaskets

RK Rubber fabricates durable rubber gaskets, rubber o-rings, and rubber sealing products from high-quality materials for top equipment performance.

- Food & beverage grade gaskets
- O-rings & sealing rings
- Intricate die cut gaskets
- Rubber grommets
- Rubber washers

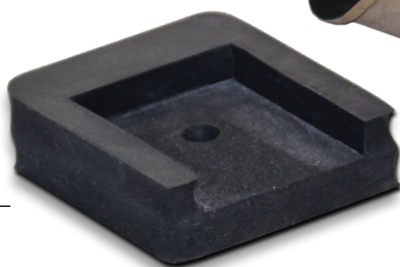

Fabrication

Fabrication of rubber and silicone prototypes and new or replacement parts from small to large fabrications for application-specific needs.

- Rubber and silicone prototypes
- Replacements for obsolete parts
- New or replacement parts for proprietary equipment
- One-offs
