

What we do best...

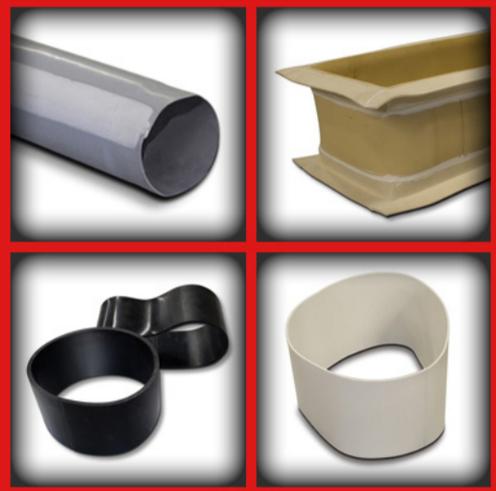

Dell Gulknacht, General Manager

If I was pressed to pick what we do best, I'd have to say fabricating rubber sleeves. Our reputation in the industry would support that. But we vulcanize over-sized gaskets like no body's business. We know conveyor belts inside and out. And we can shroud a manufacturing robot like... well like nobody can.

So what we really do best is "deliver the goods." As folks all over are looking for "change" in this new year, I'll make sure we don't... at least on what we do best.

#1 In Rubber Sleeves

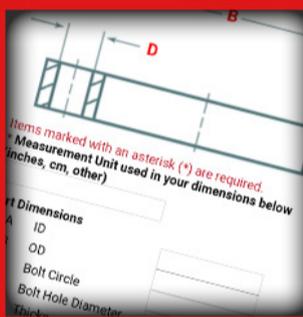

Rubber Sleeve Fabrication provides many benefits compared to fabric

- Higher durability
- Smooth interior surface
- Easy installation
- More cost-effective
- FDA-approved materials
- Made to any size and shape
