

**RK RUBBER®**  
CUSTOM PARTS  
FABRICATION

## Busy shop floor!

We make the most of our equipment and work stations. That's what craftsmen do. One of our most utilized work stations is the floor! Huge rubber gaskets measuring over 120" O.D. call for a big work area. But more importantly, they call for uncompromising craftsmanship. Our customers demand the highest quality for these big boys – no wonder why they keep showing up on our floor!

“Quality materials, a big floor and good knees!”

Dell Gulknecht, General Manager

## We Fabricate Big Ones!
