

Catch this Crew...

Dell Gulknecht, General Manager

We're in the heat of the summer and my crew is hot and on a winning streak. We've actually been on one since 1898. From our founding fathers to today's expert staff, delivering what our customers expect has always been job one. Year after year, we hit it out of the park — it never gets old!

Made in America and made to order... that's what we do.

It's Good to be a Hot Crew!

T.B.T. Fun radio spot for our home team.

Give a listen then give us a call.

Trust the Experts

RK Rubber experts help determine the best rubber materials to use and provide prototypes for application-specific testing to ensure top performance.

We develop the best solution for you from a wide variety of non-metallic rubber materials, plastics, rubber compounds, silicone rubber, and rubber sponge materials.
