Rubber Marches On...

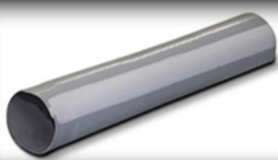

Get it? It's March and I said "Rubber Marches On!" – I crack me up. If it's one thing I've learned over the years that's... ya gotta laugh. OK, maybe not at lame puns but certainly in life. In fact, studies show that laughter, humor and happiness play a key role in good health and longevity. You can also burn calories and work your muscles by laughing... see – going to the gym is a joke!

Don't get me wrong, the world is a serious place with plenty of daily reminders on that. RK RUBBER takes its B2B reputation and relationships very serious too. Along the way and while we work together, if we can share some laughs – well our business world will be a better place.

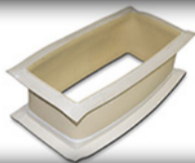

Dell Gultknecht, General Manager

WE FABRICATE SLEEVES

We can quickly supply **Straight or Tapered (Conical) Flex Connectors** to any material handling manufacturer or distribution facility in the U.S.

[Sleeves Info](#)

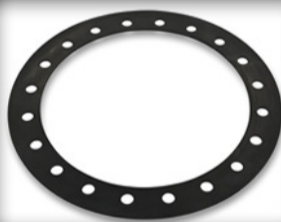

MADE IN THE U.S.A.

Our experts help determine the best **rubber materials** to use and provide prototypes for application-specific testing to ensure top performance.

We need a caption!

Help us caption this cartoon... and get a free gift!

Now and thru the end of March, send us a caption along with your mailing address. We'll be publishing the submissions and sending you a gift for helping us clown around!

EXPERIENCE = SOLUTIONS
