We Keep Pressing...

And just like that it's the last quarter of the year. We are pressing here. My crew is cranking, demand is high and we are doing our best to supply. As fast as I can get my hands on material; it's fabricated and out the door.

I don't remember ever having such a sustained pace in this industry. I am proud of the craftsmen here and the promises they allow me to make to RK RUBBER'S loyal customers. Keep those orders coming, we'll get 'em done and that's a promise.
