125 YEARS OLD!

Sometimes you just have to shout it out. Humble brag? No... this is a full-on brag. We are proud of this company; its history and its future. I can't help but wonder what our founders, Ernst Reichel and Ludwig Korfmann would say today.

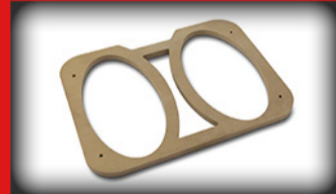

Probably "cheers" since this company had its roots in the beer industry.

Every anniversary is an opportunity to reflect and believe you me, I have been doing a lot of that lately. Throughout this celebration year, I'll be sharing and highlighting memories, people and experiences that have made this amazing run possible. And so, to you I say "cheers... let's have a great 2023!"
