

Gaskets • Sleeves • Vulcanizing • Conveyor Belts • Fabrication • Die Cutting • Seals

We are off and running into 2025!  
I hope you are as well.

I plan on “keeping my eye on the ball” – even with my Packers exiting the playoffs waaay too early. There are many distractions (local, regional, and global) that can consume one’s attention. Not to mention the wormholes I can get sucked into just by looking at my phone.

All that said, I still pledge to stay focused on the business at hand... being the **“choice of industry.”**

We fabricate the heavy-duty rubber products used in mining, construction, food & beverage, recycling, and manufacturing industries. We will keep on delivering the goods that keep you all productive and vital. Make RK RUBBER your first choice!
