MATERIAL HANDLING

Gaskets • Sleeves • Vulcanizing • Conveyor Belts • Fabrication • Die Cutting • Seals

August is State Fair time here in WI. A tradition of summer, and a showcase of farm animals, crops, and crafts. Local winners from county fairs compete

for blue ribbons in

baking, livestock,

and textiles.

It would be blue ribbons everywhere for us at RK if we could enter our belts, sleeves, gaskets or pretty much anything we craft around here. It's an accurate brag, ask any of our customers.

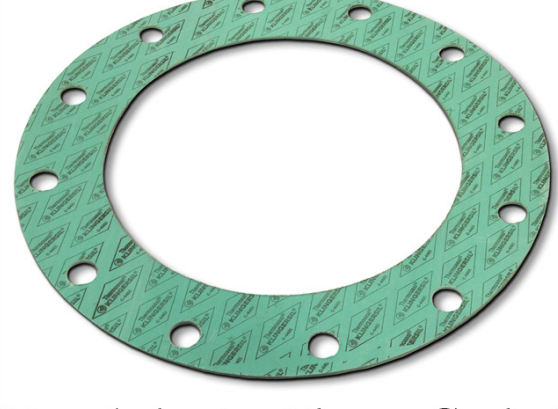

If you've been to your state's fair, you know what I'm talking about. If not, giddy up and get to one... it's a celebration of hard work and the fruits of labor.

Dell Gutknecht
General Manager

WINNING!

OUR HIGH-CRAFT
FABRICATED RUBBER PARTS
MAKES EVERYTHING BETTER

WE "CUT THE MUSTARD"

To **cut the mustard** means to reach the expected standard, succeed, or do a job well. That's our goal week in, week out.

We're also about recycling, upcycling and repurposing to give an item a new life. That's why we repurposed condiment bottles to be ideal glue dispensers – brilliant. Just don't confuse them at lunch.

EXPERIENCE = Solutions
